ICE SARMIENTO

WEB DEVELOPER & IT ENTHUSIAST

ABOUT ME

I am a BSIT graduate, with full-stack experience and knowledge of agile methodologies, I am a passionate and diligent software and web developer seeking opportunities to apply my technical skills and contribute to innovative projects in a dynamic environment

EXPERIENCE

Web Development Intern
City Government of Sta Rosa Laguna

May 2024 - Aug 2024

- Helped developed vaccination forms for HPV, flu, and pneumonia vaccines. These forms capture essential patient information, vaccination history.
- Designed front-end interfaces using CSS, Bootstrap, and developed the backend with PHP to create form applicants data collection.
- Implemented custom modules in PHP, adding various fields and functionalities to enhance the application's capabilities.
- Participated in SDLC phases, from requirements gathering to designing, implementing, testing, deploying, and maintaining the application.

PROJECTS

Capstone | Full-stack Web Dev
Green Guardian | HTML, PHP, BOOTSTRAP, CSS, JS, MySQL, IoT

2023 – 2024

Develop an IoT-based IT infrastructure for real-time monitoring of plastic combustion and streamline the digital citizen complaint process between Barangay San Francisco, CENRO, and local citizens.
